- floor scrubbers
- pressure sprayers

Cleans Without Harming:

- enamel
- brass
- formica
- copper
- porcelain
- aluminum
- stainless steel
- and other surfaces found in industrial, automotive, and municipal settings

Bio T Max

Wastes No Time or Money.

Bio T Max reduces clean up time. Its concentrated formula goes to work quickly with little effort, allowing you to wipe clean or rinse with water.

Because Bio T Max is versatile it can be diluted for many uses, reducing the amount of solvents and MSDS in you facility.

In addition, because it can be used full strength or diluted, you control costs by using only the amount you need.

Reduces Concerns About Safety, the Environment, and Regulations.

Bio T Max is biodegradable, non-toxic, non-corrosive and free of chlorinated solvents and petroleum distillates. It's the eco-friendly alternative to hazardous solvents. Safe for workers and the environment.

The major component of Bio T max is approved by the FDA as a food additive and is included in the "Generally Recognized as Safe" or GRAS list under the Food, Drug, and Cosmetic Act of 1958.

Bio T Max complies with major regulatory guidelines and alleviates the confusion and concern associated with compliance.

Available in Convenient sizes
